LEISH

Malaysia's Trusted Beauty Marketplace

Connecting clients with makeup artists and studio spaces — portfolio-first discovery, escrow-secured booking, zero off-platform guesswork.

Independent Makeup Artists Are Stuck in the DM Era

Fragmented Discovery

Bookings happen through scattered Instagram DMs and word-of-mouth — no single trusted place to browse and compare.

Trust & Guesswork

Clients can't verify quality before paying. Blurry screenshots replace real portfolios and reviews.

No Payment Protection

Direct bank transfers leave both client and artist exposed — no escrow, no dispute process, no recourse.

\$200B+

Global beauty services market and growing — with independent artists representing a large, underserved segment operating almost entirely offline.

StyleSeat, Booksy, and GlossGenius all build for professionals — none serve the client discovering and booking an artist. That gap is Leish's opening.

Portfolio-First Discovery, Escrow-Secured Booking

Leish brings independent MUAs and studio spaces online properly — with the trust and payment protection Instagram never offered.

Verified Portfolios

Real work, real reviews — browse by specialty, state, and district before booking.

Direct Booking

Instant calendar booking — no more waiting on DM replies.

Escrow Payments

Billplz & HitPay hold funds until service completion, protecting both sides.

In-App Messaging

Off-platform contact enforcement keeps transactions — and commission — on Leish.

Leish Releases Payout

One Platform, Four Roles

For Clients

- Browse real MUA & studio portfolios before booking
- Book directly — no DMs, no uncertainty
- Occasion-based discovery, not just weddings
- AI concierge to match style, budget & occasion

For MUAs & Studios

- Professional profile with booking calendar
- Guaranteed payment via escrow model
- Business analytics & earnings dashboard
- Access to Leish studio spaces for rental

One conversion remains before the seed round closes: **Sdn Bhd conversion** — a Sole Proprietorship cannot issue shares. This is scheduled ahead of investor close.

A Large Market. No Client-First Leader.

Competitor	Weakness	Leish Advantage
StyleSeat	Markets to professionals, not clients	Client-first discovery experience
Booksy	Booking utility, weak portfolio trust layer	Portfolio-driven trust before booking
GlossGenius	Salon/MUA management tool focus	Dual-sided value: booking + business tools

TikTok beauty discovery

“MUA near me” intent

Micro-occasion targeting

No major competitor owns booking-linked TikTok discovery — Leish can be first.

High-intent, occasion-based search with weak marketplace competition today.

Graduation, birthdays, content shoots — largely ignored by wedding-only rivals.

Launch-First, TikTok-Native Growth

This Is the Moment to Own Beauty Discovery

TikTok-Native Strategy

GRWM content is exploding — Leish is built to ride organic beauty discovery from day one.

Blue Ocean Category

No dominant player owns client-first MUA discovery in Malaysia today.

Growing Freelance Economy

Post-pandemic independent beauty professionals want direct client access, not salon gatekeeping.

Structural Client Gap

Every major competitor builds for professionals — none for the person doing the booking.

Entity note: All materials use the “Leish” brand. The registered legal entity is Duta Integra Solutions (SSM TR0325441-K), a Sole Proprietorship. Conversion to Sdn Bhd is planned ahead of the seed close so shares can be legally issued.
